Dr. Paula Braveman will give a Public Health Innovations Grand Rounds Lecture titled “Shorter Lives, Poorer Health: The U.S. Health Disadvantage Relative to Other Affluent Countries.”

Dr. Braveman has made major contributions on health disparities, health equity, and the social determinants of health, and has actively engaged in bringing attention to these issues in the U.S. and internationally. During the 1990s she worked with World Health Organization staff to develop and implement a global initiative on equity in health and health care and collaborated with local, state, federal, and international health agencies to see rigorous research translated into practice.

Join Us!

Monday, April 21
2:00 P.M. - 3:00 P.M.
