

GOLD PUBLIC HEALTH INNOVATION AWARD 2018

Overview and Nomination Requirements

DESCRIPTION

Made possible by the Robert S. and Barbara A. Gold Public Health Innovation Award Endowment, the Gold Award, created by the founding dean of the School of Public Health, Dr. Robert Gold and his wife, is the first award competition given to an individual for a creative solution to the world's most complex public health issues. A panel of five health entrepreneurs and/or thought leaders will decide which project to fund on an annual basis.

Successful nominations will describe a new approach to a public health problem that are cutting-edge, such as apps for digital health, therapeutics, wearable components, augmented virtual reality, interoperability between health systems, artificial intelligence, web platforms, prosthetic advances, medical adherence, sensors technology, facial recognition software, robotic nurses assistants, and remote patient monitoring and other first of their kind within the public health field.

The Gold Award will be presented on March 28th from 12-2pm in the Friedgen Family Student Lounge (SPH 2236).
