2012 Distance Counseling for Geographically Dispersed Military Families in Maryland,  
Quality Health Foundation

Proposed project to pilot a distance counseling program for geographically dispersed military families in Maryland. Base Realignment and Closure (BRAC) impacts the state of Maryland due to an influx of military youth and families. Family support programs are needed. The goal was to address a barrier to mental health services access for geographically dispersed military families in rural areas where there is a known shortage of mental health practitioners. Amount Requested: \$49,966

2010 Teaching about Bed bugs: Healthy Homes, Healthy Kids, Healthy Families, EPA, PI  
Teaching about Bedbugs: Healthy Homes, Healthy Kids, Healthy Families educates teachers and school staff, students and their families, and community members about bedbugs and other health threats in the built environment and increases their awareness about prevention and remediation. The proposed community based project would monitor indoor concentration of bedbugs within the homes of middle school children, use bedbug data in the middle school classroom to teach students about basic concepts in environmental science and math and provide relevant education and resources to families from the community about Healthy Homes. Amount Requested: \$89,732

2008 Gender Equitable Communities, Department of Health and Human Services, PI  
The Family Science Department in the School of Public Health (FMSC) and Men Can Stop Rape, Inc. (MCSR) designed a course for university students entitled "Gender Equitable Communities" to examine issues surrounding images of masculinity and gendered interaction in American culture. Evaluation of middle school participants at pre- and post-test would explore reduction in high risk behaviors, strengthening of protective/resiliency factors, and development of life skills and behaviors that lead to healthier lifestyle choices. Amount requested: \$895,816

D. Advising and Mentorship

- 2012 – present Faculty Advisor, Public Health Beyond Borders  
Mentor, support, and travel with this globally minded group of students aiming to foster a universal community by educating and serving underrepresented communities in the US and other countries. The student-run organization has a mission to assess community health needs, provide education, and collaborate with engineers and other student/professionals to improve health in the communities served by projects. Current projects: Calaba Town, Sierra Leone; Compone, Peru; Hyattsville, MD; Varanasi, India. Past Project: Debre Berhan, Ethiopia
- 2012-2017 Faculty Advisor, Half the Sky Movement at UMD  
Mentor and support students involved in Half the Sky movement which is inspired by the best-selling novel and the work of journalists Nicholas Kristoff and Sheryl WuDunn to turn oppression of women into opportunity worldwide.
- 2014 – present Faculty Advisor, Supporting Hospitals Abroad with Resources and Equipment (SHARE)  
Supports medical sustainability and global health equity by providing hospitals abroad with unused, surplus medical supplies from local domestic clinics. The UMD branch of SHARE was started by two UMD students in 2013, who modeled it after its parent branch at Johns Hopkins University School of Medicine. A research team from Johns Hopkins asserts that major U.S. hospitals collectively throw away at least \$15 million of sterile, unused surgical supplies per year. SHARE aims to reduce part of this burden, and provide these crucial supplies to those who

need them.
