

**Are you an undergraduate student looking for research opportunities?**

**Interested in pursuing a PhD degree?**

**Are you looking for a PAID summer internship!!!**

#### PROGRAM DESCRIPTION:

The UM ADAPT Program in the University Of Maryland School Of Public Health, Department of Kinesiology provides underrepresented and disadvantaged undergraduates with research, ethics, and career development training. The program extends over two consecutive years, including two academic years and two concentrated summer experiences. Our goal is to increase diversity among individuals who choose careers in biomedical/behavioral research related to aging. This invaluable experience will enhance student's research skills to be competitive graduate school applicants in aging research.

#### BENEFITS:

- Develop Research Skill sets
- Career Training & Development
- Mentor /Mentee Relationship Development
- Graduate/Professional School Preparation
- Summer Stipend
- Present at National Conferences
- Paid National Research Conference Trip

#### PROGRAM REQUIREMENTS:

- Citizens or permanent resident in U.S.
- Enrolled as **full-time student** at UMD
- Are **Sophomores**
- Minimum of a **3.0 cumulative GPA**
- Must be an **underrepresented minority** or from a disadvantaged background
- Interested in **pursuing a PhD** in biomedical research or Aging-Related Science
- Willing to commit 2 consecutive years to the program
