SEABURY AGING RESEARCH FELLOWSHIP - DONOR FUNDED SCHOLARSHIP

This award, honoring Retired Seabury Resources CEO Joseph Resch, provides $750 support for a School of Public Health graduate student conducting research in aging at the School of Public Health and Center for Aging. Selection is on the basis of outstanding academic performance. Up to 2 scholarships will be awarded.

Nomination Process

Students, faculty or staff can nominate a graduate student from any degree program in the School of Public health. Student self-nomination is encouraged. The student must:

- Currently be a SPH graduate student;
- Demonstrate outstanding academic performance;
- Be conducting research in aging
