KEEP UP WITH OUR COVID-19 NEWS

SPH faculty experts have been interviewed by CNN, New York Times, Washington Post, VoxNews, Popular Science and many more.

Visit sph.umd.edu/covid19news for the latest news.

NPR: WHO Reviews 'Current' Evidence on Coronavirus Transmission Through Air
Don Milton, a professor of environmental health, is interviewed on how the World Health Organization's information about the spread of COVID-19 was given to the public prematurely.

STAT: It's Past Time to Fully Deploy the U.S. Public Health Service Commissioned Corps to Fight COVID-19
Dean Boris Lushniak, a former Deputy US Surgeon General, explains how the U.S. Public Health Service Commissioned Corps can support health systems and advise state governments in this co-authored opinion piece.

SPH COVID-19 Resources

SPH faculty, staff and students have created and compiled resources for individuals, families and communities impacted by COVID-19 and those who want to help.

Visit sph.umd.edu/covid19-resources for the latest resources and updates.

Resources for Families During COVID-19
Department of Family Science faculty and graduate students have created several tipsheets for managing family stress, staying healthy and accessing resources for online learning and fun.

Chat Health Launches Platform to Provide Personalized COVID-19 Information
Beginning this week, ChatHealth, a new web platform developed by UMD public health students, will provide quick and curated access to information about COVID-19.

Social Media for Public Health
The University of Maryland is part of a multi-institutional effort to create an open online database to help fellow researchers study COVID-19.

The Well Terp
Find tips on how to stay healthy and connected with our weekly feature, “The Well Terp.”

Keep Connected With the SPH Community

Share Your Stories from the Frontlines of COVID-19
We know that many of you are working as public health professionals and students on the frontlines of COVID-19, and we thank you for your efforts to keep our communities healthy. If you would like to share your story for a feature, please email us at sph-comm@umd.edu with the subject “COVID-19 Story.”

IN OTHER NEWS

Doctoral Candidate Laura Drew | Improving the Lives of Women
Department of Family Science Doctoral Candidate Laura Drew is conducting research that will improve global maternal and child health and better reproductive and obstetric outcomes in resource-limited settings.

Census Day is today! Join the UMD Office of Community Engagement for a “Drumming For Census” event today at 5:00pm EST on Instagram Live. Watch on Instagram Live.
